Cagayan State University
2021 - 2025

EXPERTISE

- REACT
- NEXT JS
- HTML
- CSS
- JAVASCRIPT
- MYSQL
- MONGODB
- TAILWIND CSS

LANGUAGE

- English
- Spanish
- French

PROFILE

I'm Justine Brent Mendoza, a fresh graduate aspiring to become a Frontend Developer. During my internship, I worked with Vue.js and Laravel, gaining practical experience in real-world projects. Outside of that, I've focused primarily on React and Next.js, which I've used extensively in personal projects.

PROJECTS

Buck50 – Personal Bucket List Web App

<https://bucket-list-eta.vercel.app>

Next JS, React, MongoDB, TailwindCSS

- Built a full-stack bucket list app that lets users register, log in, and manage personal goals (add, edit, complete, delete).
- Designed a responsive, notebook-style UI using Tailwind CSS and deployed to Vercel.

Document Tracking System – Internship Project

Vue.js, Laravel, TailwindCSS

- Built a document tracking web app that tracks a physical document via serial code.
- Integrated document routing, tracking history, and audit logs.

Employee Management System – Capstone Project

HTML, CSS, Javascript, PHP, Bootstrap

- Developed a web system for managing employee records and leave credits for a local government unit. Implemented structured file uploads, dynamic record display, generate printable documents (Personal Data Sheet, Statement of Assets, Liabilities, and Net Worth), and admin-level controls.

WORK EXPERIENCE

Internship – February 2025 – May 2025 (4 months)

North Triam Tech

- Developed responsive interfaces using HTML and Tailwind CSS
- Integrated RESTful APIs for dynamic content loading
- Collaborated using Git and participated in code reviews
- Built a flexible Document Tracker system
